

MANUAL DISPENSER

Install MOBI-MAT® temporary roadways quickly and safely with MOBI-ROLL 'N STOW™, designed to transport, deploy and recover in a few minutes one or more RECPATH, up to 50m long, with or without vehicle.

Quick and easy deployment

MOBI-ROLL 'N Stow™ can be used manually, or with any vehicle equipped with standard towing coupling.

The mat can be deployed either when driving forward or backwards thanks to MOBI-ROLL 'N Stow™ reversible coupling.

Two minutes are sufficient for 2 operators to deploy or recover manually 50m of MOBI-MAT®, and only 30 seconds when using a vehicle.

Easy transport and storage

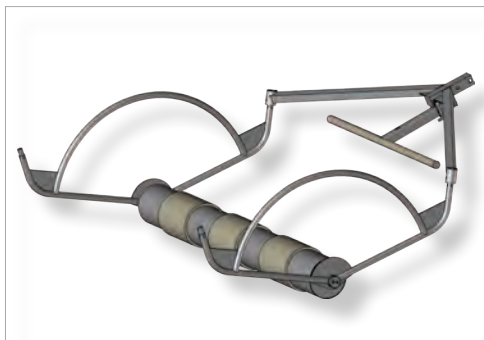

With its 45 kg, MOBI-ROLL 'N Stow™ is very easy to transport. When dismantled, it occupies minimum storage space.

Robust system

MOBI-ROLL 'N Stow™ is made of corrosion resistant materials, and is therefore particularly adapted to seafront climate.
